

Application Instructions (Predoctoral Trainees)

We submit this call for applications for predoctoral trainees for the T32HL144459, Vascular Biology, Signaling and Therapeutics Training Program (VBST). This T32 supports trainees who are or will be engaged in multidisciplinary research in Vascular Biology, Signaling and Therapeutics.

For more information about the training program, themes and mentors, please visit the [VBST website](#).

Eligibility Criteria

1. A US citizen or permanent resident.
2. Your primary mentor is an approved mentor in the VBST training program.
3. Your co-mentor must be an approved mentor in the VBST training program, but must be selected from a different theme than your primary mentor.
4. Your research is or will involve two of the four disciplines for the study Vascular Biology, Signaling and Therapeutics:
 - Vascular Signaling
 - Vascular Therapeutics
 - Neurovascular Biology
 - Angiogenesis and Regeneration

Application Materials

1. Application Cover Page (found on the [VBST website](#))
2. NIH biosketch including a Personal Statement
3. Graduate-level transcripts (do not have to be official)
4. 2 Letters of Recommendation*
5. Specific Aims Page for proposed research project (limited to 1 page)

Please email a single collated document in PDF format to kczarn4@uic.edu by **Friday, May 15, 2020 at 5:00 pm CST**.

*Letters of recommendation should be submitted on your behalf and cannot be from your mentor or co-mentor. References can email their letters to kczarn4@uic.edu by the stated application deadline.

Sincerely Yours,

Jan Kitajewski
Co-Director
