Note: The names and dates up to 1920 were verified in The Alumni Record of the University of Illinois (1921). The dates from 1920 until 1962 were amassed from the Minutes of the Board of Trustees. From 1962 to present the information came from the University catalog and the Grey Book. To be included the salary line must have been in the Department or the primary appointment listed as in our Department even if the salary came from other Centers. I have also tried to restrict this to

appointments at the Instructor level or higher. This does not mean to diminish the role that the many affiliates have played in the Department.
